Dear Rick:

I want to thank you and your organization for your work with the "Wills for Heroes" program. Our police officers, firefighters, and paramedics dedicate their lives to serving the citizens of Oklahoma, and it is comforting to know that someone is looking after the interests of the families of those first responders who put their lives on the line.

As you are aware, unfortunately, Oklahoma loses first responders each year in the line of duty. Your work ensures that, in the future, the families of those heroes will not endure undue hardship in the event of such a tragedy.

Once again, thank you for your valuable work.

Sincerely,

A handwritten signature in black ink that reads "Brad Henry".
