

# Why Is It Important To Vote?

Voting is important because everybody should get the chance to choose the leader they want. In America, we have the right to vote even if we are different and we are allowed to choose our leader. People vote to choose leaders that believe the same way they do. Voting allows you to be heard. If you don't vote you can't let

others know how you feel. Sometimes voting can make you safe. You can choose good people who will run our country well and protect us from harm. When we vote we can find good leaders and the country will stay free.
