

I can help the community by giving food and water and money to the homeless. Another way I would help the community is donate money. I can also donate books to a local library. I can give toys and clothes away to a thrift store like Goodwill. To help the community I can pick up garbage on earth day all around the earth. I can volunteer for community groups such as we care to help too. These are all the ways I can help the community but also there is probably many more.
