

Nehemiah Auxer

Civility

I am a different race that's not hard to see
Equality seems normal until I get stung like a bee
From the jokes I hear from peers
Racist jokes put me to tears
This is not the civility I remember being created
I am just a person whose life has been raided
Does equality even exist anymore
Nobody speaking the truth from their heart's core
I am human just like the rest of you
I'm tired of being called Jackie Chan or Kim Jung Un
Everyday my feelings get hurt like a sting from a bee
Remember, just cause I'm Asian doesn't mean I can't see

Civility once meant equality
This generation turned it to poverty
We're weak minded and maturity isn't strong
We think we're being funny but we're just in the wrong
The world has become more like a prison
Trapped as everyone else is forgiven
Kindness? Are you still there
Holding on you like a scary ride at the fair
I just want to be free from all this hate
The amount of food I already have on my plate
Is a burden I can't seem to just scrape off
For once someone wish me Mazel Tov
How did our generation turn to poverty
When civility once meant equality.
