

Civility

As we get older, we are taught to be polite and kind,
And respect each other
We're taught to be respectful
And share kind words with others
That's something Congress should learn to do as well
Learn to not hate and try to forgive
No matter the small, or big a reason
Small situations that should be worked out
As we learn to try and communicate better,
Being rude gets us nowhere except to hatred
So we should try and talk things out in a kind way,
Learn to forgive and not hold grudges
And hope for a better ending
