

My dream for the future is to be an astronaut and a priest.

Laws give us the right to an education.

We have the right to choose our own

vocational path. In

some other countries, they don't have as

many rights or good laws, and you're not

free to practice your religion or get an

education, or choose

your own path in life.

Following the laws and rules will help me to become a priest and an astronaut. Laws like traffic laws keep me safe on the way to school or church.

Property laws mean my family can own a house and I can own books and school supplies. Rules in the classroom help me because getting an education is the first

step to achieving my goals! If there was no order in the classroom, it would be hard to learn. I will train with all my ability. Our state motto is "labor omnia vincit," and that's what I'm going to do!
